🌐 www.Metraji.cv

Highly motivated university student with real-world professional experience in demanding, protocol-driven environments. I bring strong organizational skills, excellent English communication, and a quick-learning, proactive attitude. Looking to contribute a strong work ethic and reliable support to a forward-thinking company in Poznań while completing my studies.

Skills

Cross-Cultural Communication

Experience working and thriving in diverse, international team environments.

Team Collaboration

Strong track record of working seamlessly with shift teams and management.

Attention to Detail

Trained in high-stakes environments where precision is critical.

Adaptability & Fast Learning

Proven ability to quickly master complex new systems and protocols.

Problem Solving

Highly analytical mindset trained to identify issues and find practical solutions quickly.

Technical Troubleshooting

Comfortable navigating, diagnosing, and learning new software or technical tools.
